

Paradise GETAWAYS

Secrets to a Fantastic Honeymoon

Your honeymoon should be the perfect blend of romance, relaxation, and fun. We suggest the following tips that will help make your honeymoon a true paradise.

Destinations

Miles of white sand beaches, crystal blue waters, lush botanical gardens, exotic waterfalls, picturesque sunsets, and emerald mountains. Each exotic location we send our couples to, offer something a little different. Your Honeymoon Specialist can tell you all of the many advantages and disadvantages of each location. Our Consultants will help personalize a paradise just right for you.

Our website offers excellent destination information that you can read and learn more about each location. **Visit our website for complete destination information: at www.paradisegetaways.net and click the destinations tab.**

Budget:

When you set up a honeymoon budget, stay with an amount you are comfortable with, but don't skimp. Remember, this is your honeymoon, not just another trip. Spend enough money to stay at a resort and location that will give you the quality you are looking for, without putting financial stress on your new marriage. Paradise Getaways has access to some incredible rates for many of the top rated resorts in the world. Our consultants will give you honest advice and direction so that you will receive the best value for your budget.

Share your dream:

Let your honeymoon consultant know the desires and dreams you envision for your honeymoon. Do you and your fiancée want to go on adventure excursions, such as a zip line through the jungle, or scuba diving over a coral reef? You might want to go into a local town to do some unique shopping, or perhaps you just want to take romantic walks along the beach? Your consultant knows which resorts and destinations will give you the blend of romance, relaxation and excitement you are looking for.

Length of Stay:

When it comes to a honeymoon, quantity does not always equal quality. When you are deciding on how many nights you would like to stay versus the money it may cost, it is usually better to stay at a quality resort for a shorter period of time, than a cheaper resort for many nights. Room quality, food quality, service, and other amenities can vary greatly at different resorts. Please ask your honeymoon consultant what she recommends in regards to your length of stay. Travel time to the South Pacific or Hawaii is much different than travel time to the Caribbean. Your honeymoon consultant knows which resorts will give you the true value for the price.

Flights:

The lowest airfare is not always the best option for a honeymoon. You need to be very careful when booking your own flights. We have seen many couples book the "cheapest" airfare only to be stuck in an airport all day, or some couples arrive at their resort so late on their first night, that they have wasted their whole first day flying. Your honeymoon consultants have years of experience booking flights, and they will look for the best overall flight schedule and price. We want you to get to your destination as quickly and smoothly as possible. The sooner you can check into your resort, the more time you have to enjoy your getaway in paradise!

What to Pack:

You should pack all of your valuable items in your carryon, such as your travel documents, jewelry, camera, medicines, etc. Additionally your carryon should also include sun screen, swim suits, some extra clothes and toiletries. This will help you be prepared in case you arrive to your resort before check-in and in the unfortunate case of a luggage delay. Your consultant will help you with any questions you may have.

Your First Day:

Do Nothing! Just relax and enjoy the first few days of your marriage.
